

Kong Sokpiseth

Front-end Developer

About Me

I am a passionate and versatile software developer with a Bachelor's degree in Computer Science, which I will complete in 2029. With expertise in UI/UX design, front-end and back-end development, and application development, I am dedicated to creating user-centric, high-performance applications and websites. I thrive in collaborative environments and am excited by the opportunity to work on projects that enhance user experiences and make a lasting impact. With continuous learning at my core, I aim to contribute my technical and design skills to innovative solutions.

Work Experience

Front-End Developer

Tech Innovations Co. | Phnom Penh, Cambodia | May 2025 – Present

- Designed and developed user-friendly interfaces for web applications, focusing on responsiveness and visual appeal.
- Utilized HTML, CSS, JavaScript, and React to build interactive websites with a focus on user experience.
- Collaborated with back-end developers to integrate APIs and ensure seamless functionality.
- Conducted user testing and gathered feedback to refine designs and improve overall user satisfaction.

Back-End Developer

NextGen Solutions | Phnom Penh, Cambodia | August 2025 – Present

- Developed server-side logic and database structures using Node.js, Express, and MongoDB.
- Ensured secure data handling, optimized performance, and integrated third-party services.
- Collaborated with front-end teams to build scalable and efficient applications.
- Implemented RESTful APIs to facilitate communication between front-end and back-end systems.

UI/UX Designer (Freelance)

Self-Employed | Phnom Penh, Cambodia | January 2024 – April 2025

- Worked with clients to design user interfaces for mobile and web applications.
- Conducted research and usability testing to ensure designs met user needs and business goals.
- Created wireframes, prototypes, and high-fidelity mockups using tools like Adobe XD and Figma.
- Delivered pixel-perfect designs and worked closely with development teams for smooth handovers.

Projects

Mobile App – Task Manager

- Developed a cross-platform mobile app using React Native for task management.
- Integrated features like task categorization, reminders, and priority settings to improve productivity.

E-Commerce Website

- Designed and built a responsive e-commerce website with a secure checkout process.
- Integrated payment gateways (Stripe) and implemented a shopping cart feature.
